

CHAPTER I

INTRODUCTION

A. Background of the Study

Language has become an important thing in social life. People use language as a tool to communicate with others in society because language can be used to express the feelings of each other. Language is a socially acceptable code to send the concept by using symbols that are governed by the terms. Without language, people will feel difficult to show their feeling in communication.

In this era, there are some language varieties increasing in society. The varieties of language used in social or specific purposes called language variety. The use of language as a tool for communication in life is various. It could be from the environment or the informal group. Day by day, language has become various types. It can be caused by environmental factors and the progress of the times. One of the types is called slang.

Slang is a non-standard variety of words by newly coined and chances the phrase. Language is delivered in formal or informal conditions. Formal language is used in the formal context or standard situation. In the informal situation, many groups of people used non-standard words in communication with others or to express their feeling in informal situation. For examples are “gotta and wanna”. Slang word is one of the varieties of language which means to express the feeling in the informal group and situation. Slang words also used in movies.

The movie has become the favorite thing for rare of the community in the world. Movies can be enjoyed by people with their respective limitations. Many movies have a comedy genre. One of them is the “Deadpool II” movie. The researcher chooses “Deadpool II” movie to be analyzed because “Deadpool II” movie has a comedy genre with a relaxed society. There are many slang words found in the “Deadpool II” movie. So the researcher is interested to analyze the slang words found in Deadpool II movies.

The study of slang word has been conducted by the previous researchers. One of them is the study conducted by Vonny Elisa Octavia (2017) *An Analysis of Slang Words in the Far East Movement Song As The Form Of Language Development and It's Used in The Daily Life*. This study discusses slang words found in the song lyrics.

A Song as the literary work is used as daily life (Zamaletdinova, 2016). The purposes of this study were to analyze the slang words and the characteristics of slang words in the Far East Movement's movie with the sociolinguistics approach and how the song affects the daily life.

This research focuses on the English slang words used in the "Deadpool II" movie. The researcher chooses to analyze the slang words and the social reasons of using slang words in "Deadpool II" movie because "Deadpool II" is one of the movies which has an action genre and there are many slang words found in this movie and it is interesting to be analyzed.

The significance of this study is to analyze the slang words found in "Deadpool II" movie and the reasons of using slang words because those topics are the unique phenomena about the use of non-standard words in the certain group affected by its society called slang word and also to increase the understanding of using slang words and their sociolinguistics aspects. There are some phenomena of slang words found in the data source in "Deadpool II" movie script as follows:

A man : "Those muties are being transferred to a supermax, 80 miles a way"
 Wade : "Great, I'll pick 'em off along the way."
 A man : "Hold your tecticles there, buddy, okay?"

The conversation above is a short dialogue from Wade and a man in the messed up situation when the mutants are being transferred. There is the word "em" which categorized as a clipping of slang word. It is because the word "em" is the short word from the formal word 'them' without changing the meaning which refers to the mutants. So the word "em" means the group of people that Wade wants to pick off along the way. So, the type of slang is clipping.

Another example of using slang words in "Deadpool II" movie as follows:

Wade : "Hang in the laundry out at 1,300feet.. intercept the convoy and grab the boy."
 John : "Let's bring on the carnage, **baby!**"
 A man : "Get me on the ground, watch me go!"
 Wade : "Yeah!"

The participants of the text above are Wade and his team. The conversation happened in the helicopter when they're ready to have an exercise for battle. The topic of the text is Wade and his team wanted to fight the enemies from the helicopter.

The reason of slang words used in the conversation is to share a high spirit. In share high spirits means that a man tried to increase the spirit of the members of his team with a brave heart and called them as a baby. So the reason of using ‘baby!’ is to share a high spirit.

Based on the examples above, the researcher is interested in conducting the research entitled An Analysis of Slang Word In “Deadpool II” Movie Script.

B. Problem Statement

Based on the description of the background that has been put forward in the previous section, it can be proposed problem formulation as follows:

1. What are the types of slang words found in “Deadpool II” movie?
2. What are the social reasons of using slang words in “Deadpool II” movie?

C. The Objective of Study

Based on the problem statement that the researchers have been considered and formulated above, the object of the study are:

1. To classify the English slang words used by the characters in the “Deadpool II” movie.
2. To analyze the social reasons of using slang words in “Deadpool II” movie.

D. The Benefit of Study

The researcher hopes this research can give benefits as follows :

1. Theoretically

This study can be the source of reference for English teachers and another researcher.

2. Practically

- a. Sociolinguistics Lectures

This study can be the source of study for lectures related to sociolinguistics especially in slang words and its social reasons.

- b. Future Researcher

This research can be a reference for the other researchers to learn more about the varieties of words especially slang words.
